

**SunPro®**

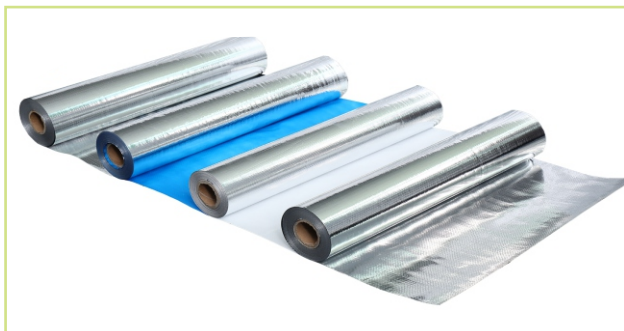

### Scrim Laminates Film (Solid, Perforated)

SunPro® Group of Companies are Manufacturer and Exporter of Scrim base laminates with different substant Like Anti-Corrosive Coated Aluminium Foil, MetPet, Kraft, through extrusion LDPE coating, and Film Base Laminates. Scime like Woven, Fiberglass, and Polyester are used based on application, also in different shapes and sizes. Our laminate films are Very Low Emissivity and High Reflectivity. We can also do Anti-Corrosive Coated AL Foil with LDPE Coating.

**Application :** Reflective insulation, and Lamination Purpose on other insulation materials as a reflectivity or VCL layer.

### Woven Scrim Laminates (Solid, Perforated)

SunPro® Group of Companies are Manufacturers and Exporters of Woven base laminates with different substant Like Anti-Corrosive Coated Aluminium Foil, MetPet through extrusion LDPE coating.

**Application :** Reflective insulation, Bag making, Machinery packaging, Thermal Cover, Pouches, Packing of tyres, Wrapping of steel Piper and Coils, Geotextiles, Automobiles, and in many other applications.

**SunPro®**

### Reflective Film for Insulation Materials Mfg.

### Application or used in OEM Manufacturer Like

- Air Bubble Insulation
- XLPE Form Insulation
- XPS Form Insulations
- EPE Form Insulations
- Mineral wool insulation
- Glass Wool Insulations
- Ceramic Wool Insulations
- NBR Rubber application
- Phenolic Foam Board
- PUR Panel Board
- PU Panel Board
- PIR Panel Board
- PUF Panel Board
- Duct Sealing Insulation
- Piper Insulation
- Under Deck Roofing Insulation
- Insulation / Foil Tape
- Cold Chain Thermal Insulations
- Thermal pallet Covers/ Blankets Manufacturing

### Non-Woven Laminates (Solid, Perforated)

SunPro® Group of Companies are Manufacturer and Exporter of Non-woven base laminates with different substant Like Anti-Corrosive Coated Aluminium Foil, MetPet through extrusion LDPE coating.

**Application :** Reflective insulation, Thermal Cover, Making Bag, Pouches, Covers, surgical gowns, drapes, diapers, wet wipes, Bandages, Face masks, Geotextiles, automobiles, backing for carpet and tufting, and in many other applications
